

MOBILE WHEEL CARRIAGE

BATTERY POWERED

The wheel assembly trolley Master Wheel 80 is a powerful working tool, which is suitable for mounting and transporting

wheels. Numerous practical details enable the flexible use in every workshop environment.

- + BLITZ - Pioneer in wheel assembly trolleys
- + Double battery allows up to 100 lifting and lowering movements
- + Low-maintenance spindle
- + Safety carriage

Low-maintenance spindle: A novel construction protects the lifting spindle effectively from dirt and other external influences. Drive is by powerful electric motor with integrated safety brakes.

The offset column makes it easy to work on the wheel.

The powerful batteries and the control unit are protected in the floor assembly.

Easy handling: The load can be easily manoeuvred thanks to the castors rotating around 360°

The MW80 is suitable for mounting and transporting wheels. The large handle facilitates movement.

Safety chassis: a low centre of gravity ensures optimum mobility while at the same time preventing tipping.

The batteries can be quickly recharged using the universal charging cable supplied.

The wheel mounting trolley MW80 facilitates the lifting of heavy wheels and thus protects against back problems.

HIGHLIGHTS IN DETAIL

- 1** Lifting column offset. Ideal accessibility to the wheel bolts
- 2** Simple operation. The operating buttons are located under the storage tray. The wheel can be perfectly positioned on the vehicle by jogging.
- 3** The flexible, ball-bearing mounting fork with 3 additional guide rollers ensures optimum wheel mounting. The wheel can be turned easily with just one hand.
- 4** The battery indicator always indicates the current state of charge. An emergency stop button and a charging socket are easily accessible.
- 5** The built-in swivel soft castors (two of them with parking brakes) ensure smooth running.
- 6** A fine fuse to protect the electrical components is located under the removable cover.

MW-80

Model	MW-80
Capacity	80 kg
Tyre size	135/80 R13-325/35 R22
Stroke	1.440 mm
Lifting time	20 s
Lowering time	15 s
A Length	688 mm
B Width	726 mm
C Height	1.865 mm
Weight per column	60 kg
